- d) To give Three "Young Scientist Awards and Prizes" for **BEST PAPER** Presentation (by young Researchers below 35 years), each in Pure Mathematics, Applied Mathematics and Interdisciplinary.

The Goals of the Parishad for the Next Few Years.

- (a) To work for the popularization of Mathematics among students and the Public
- (b) To work for the introduction of more applications of Mathematics in curricula at all levels.
- (c) To work for greater interaction of Mathematics and users of Mathematics for the solutions of those national problems which require

The present MOU records terms and conditions between the parties as follows:

1. Research:

Members of both parties will benefit from research activities by appointing co-guides/supervisors in research projects or other research work of different departments of both parties.

2. Exchange of faculties:

Members of both parties will be benefited by exchanging the teaching faculties of different subjects (which is required) without any financial involvement.

3. Cultural and extra-curricular activities:

The students of the First party will participate in different cultural and extracurricular activities of the second party to give broader exposure to the students, as the First party is a Dayanand Vedic College, Orai.

4. Participation/Collaboration of members of both parties in different International and National seminars.

5. Use of Infrastructure:

Both parties will use the seminar hall of the first party as needed and available on the prescribed terms and conditions.

Termination of Agreement:

The agreement may be terminated on mutual agreement by giving three months' notice to both parties.

Amendment to the agreement:

During the operation of the agreement, circumstances may arise which may call for alteration or modification of this agreement. These modifications/ alterations will be mutually discussed and agreed upon in writing.
